EVERO ANNOUNCES LAUNCH OF POWERFUL EDESKTOP™ SOLUTION; PROVIDES ENTERPRISE LEVEL IT SERVICES TO NON-PROFITS

July 21, 2009, Williston Park, NY: eVero Corp, a leading IT service provider of cost-effective Enterprise Level IT Services to non-profit agencies, today announced the launch of a powerful IT solution, eDESKTOP™. This hosted desktop solution offers HIPAA compliant data security and looks and acts exactly like a regular PC, but instead of residing locally, all software and data are stored in eVero's state-of-the-art, secure datacenters. This turn-key solution and flexible infrastructure offers numerous advantages including cost savings, remote access and reliability, data security, and reduced management. From Cloud Computing to Hot Desking, eDESKTOP™ makes it possible for non-profit agency workers to gain access to their data from anywhere, at anytime. More information is available at <http://www.evero.net> or call 866.GO.EVERO.

Why should non-profit agencies build their own network when they can outsource IT services at a fraction of the cost? eVero has taken Information Technology to a higher level by offering non-profit agencies the ability to not only outsource their IT Network, but receive business continuity management services that includes a HIPAA compliant disaster recovery plan at no extra cost. eVero makes it possible for agencies to have a unified solution that provides unique visibility associated with any adverse event that impacts normal business operations. By bundling their IT services, non-profit agencies are realizing a large ROI by obtaining significant savings in productivity, time, and IT support costs. For further information on eVero Corporation, please visit their website at www.evero.net or call 866.GO.EVERO.
